

DENPAFLUX FASTER, SMARTER EMC SERVICES FOR MODERN ELECTRONICS DESIGN

Wide range of EMC Services to simplify your EMC design process:

EMC Standards Identification

We identify the appropriate EMC standards for your project to ensure compliance and avoid costly redesigns.

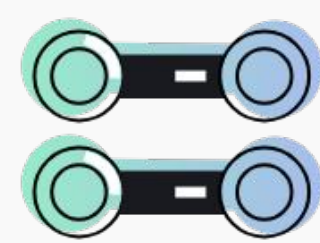

Detailed EMC Test Reports

Our team interprets and writes comprehensive EMC test reports, ensuring you have the documentation needed for compliance.

Design Analysis and Review

Our experts analyze your schematic and Bill of Materials, reviewing architecture, grounding, filter design and simulation, and protection design.

Interactive EMC Issue Viewer

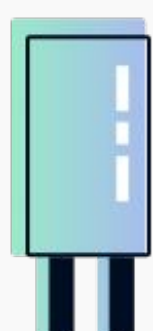

Easily view and analyze detected EMC issues using our interactive design viewer, making complex design challenges more manageable and understandable.

Wiring and Mechanics Review

We conduct thorough reviews of your wiring and grounding mechanics to optimize EMC performance.
